

COURSE PROGRAM: RECRUITMENT CAREER STARTER

Job Description Breakdown & Intake Alignment

BATCH COHORT Recruitment Career Starter — Weekend Morning Cohort (Sept 2026)	LEAD INSTRUCTOR Brahmita Nayak	SCHEDULE & TIMING Sun, 13 Sept, 2026 10:00 am - 01:00 pm IST
--	--	---

01 Learning Objectives & Target Capabilities

Core competencies attendees master upon completing this session

- ✓ Master practical, industry-standard execution of Job Description Breakdown & Intake Alignment.
- ✓ Apply hands-on recruitment workflows from sourcing, screening to candidate closing.
- ✓ Identify common recruitment bottlenecks and optimize hiring turnaround times (TAT).

02 Detailed Syllabus Topics & Curriculum Breakdown

Step-by-step modular components covered in this session

- Job Description Breakdown & Intake Alignment**
- Foundational principles & operational workflows
 - Advanced talent search, qualification & conversion tactics
 - Industry benchmarking, quality metrics & documentation

03 Trainer Teaching Notes & Paced Talking Points

Chronological 120-minute delivery framework with talking points

PEDAGOGICAL GUIDANCE FOR TRAINER:
Follow this 4-stage delivery timeline. Balance conceptual delivery with live screen-sharing and student interaction.

- 15 MINS Opening & Context Setting**
- ▶ Welcome students and link today's session on "Job Description Breakdown & Intake Alignment" to the broader recruitment lifecycle.
 - ▶ Poll the cohort: "How many of you have faced friction or candidate drop-offs at this stage?"
 - ▶ State the concrete business outcome: how mastering this makes a recruiter 3x more productive and hire-ready.
- 45 MINS Deep-Dive Concept Delivery & Frameworks**
- ▶ Walk through the step-by-step workflow for Job Description Breakdown & Intake Alignment.
 - ▶ Demonstrate real-time screen sharing: live Boolean strings, intake forms, or ATS pipeline configuration.
 - ▶ Contrast junior vs. senior recruiter methods: highlight how high-performers avoid time-wasting traps.
- 35 MINS Live Demonstration & Student Walkthrough**
- ▶ Execute a live mock demonstration using real candidate profiles or job descriptions.
 - ▶ Call on 2-3 students to suggest search parameters or candidate objection responses in real time.
 - ▶ Emphasize compliance, candidate experience, and metric tracking (Submittal-to-Interview ratio).
- 25 MINS Hands-on Activity, Q&A & Wrap-Up**
- ▶ Assign the practical exercise below; give students 15 minutes of structured practice.
 - ▶ Review 2 volunteer submissions and provide immediate tactical critique.
 - ▶ Announce the attendance-gated assignment/assessment and key action items before next class.

04

Key Concepts & Industry Case Studies

Applied talent acquisition frameworks & verified corporate benchmarks

High-Impact Candidate Conversion & Intake Calibration

Recruiting speed is determined in the first 48 hours. Calibrating the exact must-haves versus good-to-haves with hiring managers prevents weeks of futile sourcing.

REAL-WORLD CASE STUDY & METRIC BENCHMARK:

Case Study: A fast-growing tech startup reduced their Time-to-Fill from 42 days to 16 days by implementing 15-minute calibration intake sheets and 3 benchmark profiles before starting active outreach.

Predictive Screening & Eliminating Offer Dropouts

Assessing intent, compensation expectations, and competing offers during early stages ensures only high-probability candidates reach the offer table.

REAL-WORLD CASE STUDY & METRIC BENCHMARK:

Case Study: Enterprise IT services firm increased joining ratio from 68% to 89% by embedding counter-offer risk audits and transparent notice period buy-out protocols during initial screening calls.

05

Practical Classroom Activities & Exercises

Direct classroom simulations and portfolio artifacts

Hands-on Lab: Job Description Breakdown & Intake Alignment Live Execution

Instructions: Using the provided job specification / scenario, build the complete deliverable: Foundational principles & operational workflows, Advanced talent search, qualification & conversion tactics, Industry benchmarking, quality metrics & documentation.

Tangible Deliverable: Completed industry deliverable ready for portfolio.

06

Recommended Recruitment Software & Tech Stack

Enterprise-grade recruiting tools utilized during this session

LinkedIn Recruiter

Sourcing & Boolean

Talent mapping & InMail outreach

Naukri Resdex

Job Portal Database

Keyword filtering & active candidate search

ChatGPT & Claude

GenAI Prompting

JD enhancement, outreach copy & boolean builder

Applicant Tracking Systems (ATS)

Pipeline Management

Candidate tracking & submittal notes

07

Check-for-Understanding & Discussion Prompts

Oral viva check and critical scenario analysis

Q1

What are the top 3 failure points when recruiters execute "Job Description Breakdown & Intake Alignment", and how do you mitigate them?

Q2

How do you adjust your recruitment strategy when candidate response rate drops below 15%?

Q3

Explain how to measure Return on Effort (ROE) between active outbound sourcing vs. inbound portal applicants.

Q4

Role-play question: How would you handle a hiring manager who insists on unrealistic candidate criteria for an urgent requisition?

08

Session Summary & Post-Class Action Items

Core takeaways and mandatory preparation before next session

- ✓ Consistency in execution is what separates average recruiters from top 1% executive talent specialists.
- ✓ Always document your candidate communication trail, objection handling points, and submittal feedback in the ATS.
- ✓ Complete today's practical assignment and submit it via your student portal before the next live session.
