PEDAGOGICAL GUIDANCE FOR TRAINER:

Follow this 4-stage delivery timeline. Balance conceptual delivery with live screen-sharing and student interaction.

15 MINS

Opening & Context Setting

- ▶ Welcome students and link today's session on "Client Negotiation, Delivery & Team Scaling" to the broader recruitment lifecycle.
- ▶ Poll the cohort: "How many of you have faced friction or candidate drop-offs at this stage?"
- ▶ State the concrete business outcome: how mastering this makes a recruiter 3x more productive and hire-ready.

45 MINS

Deep-Dive Concept Delivery & Frameworks

- ▶ Walk through the step-by-step workflow for Client Negotiation, Delivery & Team Scaling.
- ▶ Demonstrate real-time screen sharing: live Boolean strings, intake forms, or ATS pipeline configuration.
- ▶ Contrast junior vs. senior recruiter methods: highlight how high-performers avoid time-wasting traps.

35 MINS

Live Demonstration & Student Walkthrough

- ▶ Execute a live mock demonstration using real candidate profiles or job descriptions.
- ▶ Call on 2-3 students to suggest search parameters or candidate objection responses in real time.
- ▶ Emphasize compliance, candidate experience, and metric tracking (Submittal-to-Interview ratio).

25 MINS

Hands-on Activity, Q&A & Wrap-Up

- ▶ Assign the practical exercise below; give students 15 minutes of structured practice.
- ▶ Review 2 volunteer submissions and provide immediate tactical critique.
- ▶ Announce the attendance-gated assignment/assessment and key action items before next class.

04

Key Concepts & Industry Case Studies

Applied talent acquisition frameworks & verified corporate benchmarks

High-Impact Candidate Conversion & Intake Calibration

Recruiting speed is determined in the first 48 hours. Calibrating the exact must-haves versus good-to-haves with hiring managers prevents weeks of futile sourcing.

REAL-WORLD CASE STUDY & METRIC BENCHMARK:

Case Study: A fast-growing tech startup reduced their Time-to-Fill from 42 days to 16 days by implementing 15-minute calibration intake sheets and 3 benchmark profiles before starting active outreach.

Predictive Screening & Eliminating Offer Dropouts

Assessing intent, compensation expectations, and competing offers during early stages ensures only high-probability candidates reach the offer table.

REAL-WORLD CASE STUDY & METRIC BENCHMARK:

Case Study: Enterprise IT services firm increased joining ratio from 68% to 89% by embedding counter-offer risk audits and transparent notice period buy-out protocols during initial screening calls.
