

COURSE PROGRAM: CORPORATE RECRUITMENT TRAINING

Corporate Sourcing Audit & Boolean Optimization Workshop

BATCH COHORT

Corporate Recruitment Training —
Enterprise TA Capability Cohort (Sept
2026)

LEAD INSTRUCTOR

Shesha Shhiv Mohanty

SCHEDULE & TIMING

Mon, 07 Sept, 2026

10:00 am - 01:00 pm IST

01 Learning Objectives & Target Capabilities

Core competencies attendees master upon completing this session

- ✓ Upgrade in-house recruiters with cutting-edge talent intelligence and Boolean mastery.
- ✓ Master practical, industry-standard execution of Corporate Sourcing Audit & Boolean Optimization Workshop.
- ✓ Apply hands-on recruitment workflows from sourcing, screening to candidate closing.
- ✓ Identify common recruitment bottlenecks and optimize hiring turnaround times (TAT).

02 Detailed Syllabus Topics & Curriculum Breakdown

Step-by-step modular components covered in this session

Core Syllabus Topics

- Advanced Boolean & Semantic AI search
- Mapping Competitor Talent Pools
- Diversity & Inclusion (D&I) Sourcing

03 Trainer Teaching Notes & Paced Talking Points

Chronological 120-minute delivery framework with talking points

PEDAGOGICAL GUIDANCE FOR TRAINER:

Follow this 4-stage delivery timeline. Balance conceptual delivery with live screen-sharing and student interaction.

15 MINS

Opening & Context Setting

- ▶ Welcome students and link today's session on "Corporate Sourcing Audit & Boolean Optimization Workshop" to the broader recruitment lifecycle.
- ▶ Poll the cohort: "How many of you have faced friction or candidate drop-offs at this stage?"
- ▶ State the concrete business outcome: how mastering this makes a recruiter 3x more productive and hire-ready.

45 MINS

Deep-Dive Concept Delivery & Frameworks

- ▶ Walk through the step-by-step workflow for Core Syllabus Topics.
- ▶ Demonstrate real-time screen sharing: live Boolean strings, intake forms, or ATS pipeline configuration.
- ▶ Contrast junior vs. senior recruiter methods: highlight how high-performers avoid time-wasting traps.

35 MINS

Live Demonstration & Student Walkthrough

- ▶ Execute a live mock demonstration using real candidate profiles or job descriptions.
- ▶ Call on 2-3 students to suggest search parameters or candidate objection responses in real time.
- ▶ Emphasize compliance, candidate experience, and metric tracking (Submittal-to-Interview ratio).

25 MINS

Hands-on Activity, Q&A & Wrap-Up

- ▶ Assign the practical exercise below; give students 15 minutes of structured practice.
- ▶ Review 2 volunteer submissions and provide immediate tactical critique.
- ▶ Announce the attendance-gated assignment/assessment and key action items before next class.

04 Key Concepts & Industry Case Studies

Applied talent acquisition frameworks & verified corporate benchmarks

High-Impact Candidate Conversion & Intake Calibration

Recruiting speed is determined in the first 48 hours. Calibrating the exact must-haves versus good-to-haves with hiring managers prevents weeks of futile sourcing.

REAL-WORLD CASE STUDY & METRIC BENCHMARK:

Case Study: A fast-growing tech startup reduced their Time-to-Fill from 42 days to 16 days by implementing 15-minute calibration intake sheets and 3 benchmark profiles before starting active outreach.

Predictive Screening & Eliminating Offer Dropouts

Assessing intent, compensation expectations, and competing offers during early stages ensures only high-probability candidates reach the offer table.

REAL-WORLD CASE STUDY & METRIC BENCHMARK:

Case Study: Enterprise IT services firm increased joining ratio from 68% to 89% by embedding counter-offer risk audits and transparent notice period buy-out protocols during initial screening calls.

05 Practical Classroom Activities & Exercises

Direct classroom simulations and portfolio artifacts

Hands-on Lab: Corporate Sourcing Audit & Boolean Optimization Workshop Live Execution

Instructions: Using the provided job specification / scenario, build the complete deliverable: Advanced Boolean & Semantic AI search, Mapping Competitor Talent Pools, Diversity & Inclusion (D&I) Sourcing.

Tangible Deliverable: Execute high-speed talent mapping for current open requisitions.

06 Recommended Recruitment Software & Tech Stack

Enterprise-grade recruiting tools utilized during this session

Enterprise ATS & CRM

Daily recruiter operations & efficiency

Hiring Operations

AI Sourcing Accelerators

Daily recruiter operations & efficiency

Automation

Talent Analytics Dashboards

Daily recruiter operations & efficiency

Recruitment BI

LinkedIn Talent Insights

Daily recruiter operations & efficiency

Market Intelligence

07 Check-for-Understanding & Discussion Prompts

Oral viva check and critical scenario analysis

Q1

What are the top 3 failure points when recruiters execute "Corporate Sourcing Audit & Boolean Optimization Workshop", and how do you mitigate them?

Q2

How do you adjust your recruitment strategy when candidate response rate drops below 15%?

Q3

Explain how to measure Return on Effort (ROE) between active outbound sourcing vs. inbound portal applicants.

Q4

Role-play question: How would you handle a hiring manager who insists on unrealistic candidate criteria for an urgent requisition?

08 Session Summary & Post-Class Action Items

Core takeaways and mandatory preparation before next session

- ✓ Consistency in execution is what separates average recruiters from top 1% executive talent specialists.
- ✓ Always document your candidate communication trail, objection handling points, and submittal feedback in the ATS.
- ✓ Complete today's practical assignment and submit it via your student portal before the next live session.
