

COURSE PROGRAM: CORPORATE RECRUITMENT TRAINING

Session 3: Employer Branding, Candidate Experience & AI Tools

BATCH COHORT

Corporate Recruitment Training —
Enterprise TA Capability Cohort (Sept
2026)

LEAD INSTRUCTOR

Shesha Shhiv Mohanty

SCHEDULE & TIMING

Thu, 06 Aug, 2026

07:00 pm - 09:00 pm IST

01 Learning Objectives & Target Capabilities

Core competencies attendees master upon completing this session

- ✓ Boost offer acceptance rates and lower renege rates.
- ✓ Master practical, industry-standard execution of Employer Branding, Candidate Experience & AI Tools.
- ✓ Apply hands-on recruitment workflows from sourcing, screening to candidate closing.
- ✓ Identify common recruitment bottlenecks and optimize hiring turnaround times (TAT).

02 Detailed Syllabus Topics & Curriculum Breakdown

Step-by-step modular components covered in this session

Module 3: Core Concepts

- Building a standout candidate experience from application to onboarding
- Deploying AI tools for JD writing, outreach personalization, and interview notes
- Measuring and optimizing internal recruitment KPIs (TAT, Cost per Hire, Quality of Hire)

03 Trainer Teaching Notes & Paced Talking Points

Chronological 120-minute delivery framework with talking points

PEDAGOGICAL GUIDANCE FOR TRAINER:

Follow this 4-stage delivery timeline. Balance conceptual delivery with live screen-sharing and student interaction.

15 MINS

Opening & Context Setting

- ▶ Welcome students and link today's session on "Employer Branding, Candidate Experience & AI Tools" to the broader recruitment lifecycle.
- ▶ Poll the cohort: "How many of you have faced friction or candidate drop-offs at this stage?"
- ▶ State the concrete business outcome: how mastering this makes a recruiter 3x more productive and hire-ready.

45 MINS

Deep-Dive Concept Delivery & Frameworks

- ▶ Walk through the step-by-step workflow for Module 3: Core Concepts.
- ▶ Demonstrate real-time screen sharing: live Boolean strings, intake forms, or ATS pipeline configuration.
- ▶ Contrast junior vs. senior recruiter methods: highlight how high-performers avoid time-wasting traps.

35 MINS

Live Demonstration & Student Walkthrough

- ▶ Execute a live mock demonstration using real candidate profiles or job descriptions.
- ▶ Call on 2-3 students to suggest search parameters or candidate objection responses in real time.
- ▶ Emphasize compliance, candidate experience, and metric tracking (Submittal-to-Interview ratio).

25 MINS

Hands-on Activity, Q&A & Wrap-Up

- ▶ Assign the practical exercise below; give students 15 minutes of structured practice.
- ▶ Review 2 volunteer submissions and provide immediate tactical critique.
- ▶ Announce the attendance-gated assignment/assessment and key action items before next class.

04

Key Concepts & Industry Case Studies

Applied talent acquisition frameworks & verified corporate benchmarks

High-Impact Candidate Conversion & Intake Calibration

Recruiting speed is determined in the first 48 hours. Calibrating the exact must-haves versus good-to-haves with hiring managers prevents weeks of futile sourcing.

REAL-WORLD CASE STUDY & METRIC BENCHMARK:

Case Study: A fast-growing tech startup reduced their Time-to-Fill from 42 days to 16 days by implementing 15-minute calibration intake sheets and 3 benchmark profiles before starting active outreach.

Predictive Screening & Eliminating Offer Dropouts

Assessing intent, compensation expectations, and competing offers during early stages ensures only high-probability candidates reach the offer table.

REAL-WORLD CASE STUDY & METRIC BENCHMARK:

Case Study: Enterprise IT services firm increased joining ratio from 68% to 89% by embedding counter-offer risk audits and transparent notice period buy-out protocols during initial screening calls.

05

Practical Classroom Activities & Exercises

Direct classroom simulations and portfolio artifacts

Hands-on Lab: Employer Branding, Candidate Experience & AI Tools Live Execution

Instructions: Using the provided job specification / scenario, build the complete deliverable: Building a standout candidate experience from application to onboarding, Deploying AI tools for JD writing, outreach personalization, and interview notes, Measuring and optimizing internal recruitment KPIs (TAT, Cost per Hire, Quality of Hire).

Tangible Deliverable: Implement a comprehensive candidate engagement playbook.

06

Recommended Recruitment Software & Tech Stack

Enterprise-grade recruiting tools utilized during this session

Enterprise ATS & CRM

Daily recruiter operations & efficiency

Hiring Operations

AI Sourcing Accelerators

Daily recruiter operations & efficiency

Automation

Talent Analytics Dashboards

Daily recruiter operations & efficiency

Recruitment BI

LinkedIn Talent Insights

Daily recruiter operations & efficiency

Market Intelligence

07

Check-for-Understanding & Discussion Prompts

Oral viva check and critical scenario analysis

Q1

What are the top 3 failure points when recruiters execute "Employer Branding, Candidate Experience & AI Tools", and how do you mitigate them?

Q2

How do you adjust your recruitment strategy when candidate response rate drops below 15%?

Q3

Explain how to measure Return on Effort (ROE) between active outbound sourcing vs. inbound portal applicants.

Q4

Role-play question: How would you handle a hiring manager who insists on unrealistic candidate criteria for an urgent requisition?

08

Session Summary & Post-Class Action Items

Core takeaways and mandatory preparation before next session

- ✓ Consistency in execution is what separates average recruiters from top 1% executive talent specialists.
- ✓ Always document your candidate communication trail, objection handling points, and submittal feedback in the ATS.
- ✓ Complete today's practical assignment and submit it via your student portal before the next live session.
