

COURSE PROGRAM: AI FOR RECRUITMENT

Session 9: Module 9 — AI for Recruitment Marketing & Employer Branding

BATCH COHORT

AI for Recruitment — Cohort 1 (Flagship) Shesha Shhiv Mohanty

LEAD INSTRUCTOR

SCHEDULE & TIMING

Mon, 05 Oct, 2026

07:00 pm - 09:00 pm IST

01 Learning Objectives & Target Capabilities

Core competencies attendees master upon completing this session

- ✓ Master practical, industry-standard execution of Module 9 — AI for Recruitment Marketing & Employer Branding.
- ✓ Apply hands-on recruitment workflows from sourcing, screening to candidate closing.
- ✓ Identify common recruitment bottlenecks and optimize hiring turnaround times (TAT).

02 Detailed Syllabus Topics & Curriculum Breakdown

Step-by-step modular components covered in this session

Advanced / Module 9: Core AI Competencies

- Generating viral, authentic LinkedIn hiring posts and job teaser carousels
- Module 9 — AI for Recruitment Marketing & Employer Branding — Detailed Lecture & Guide
- Crafting compelling Employer Value Proposition (EVP) messaging and culture stories
- Designing targeted candidate recruitment campaigns across niche demographics
- Writing candidate-centric email newsletters to nurture passive candidate databases
- Visual & graphic AI prompts for job announcements and employer branding banners
- Practical Project: Build a 30-Day Recruitment Marketing & Employer Branding Calendar

03 Trainer Teaching Notes & Paced Talking Points

Chronological 120-minute delivery framework with talking points

PEDAGOGICAL GUIDANCE FOR TRAINER:

Follow this 4-stage delivery timeline. Balance conceptual delivery with live screen-sharing and student interaction.

15 MINS

Opening & Context Setting

- ▶ Welcome students and link today's session on "Module 9 — AI for Recruitment Marketing & Employer Branding" to the broader recruitment lifecycle.
- ▶ Poll the cohort: "How many of you have faced friction or candidate drop-offs at this stage?"
- ▶ State the concrete business outcome: how mastering this makes a recruiter 3x more productive and hire-ready.

45 MINS

Deep-Dive Concept Delivery & Frameworks

- ▶ Walk through the step-by-step workflow for Advanced / Module 9: Core AI Competencies.
- ▶ Demonstrate real-time screen sharing: live Boolean strings, intake forms, or ATS pipeline configuration.
- ▶ Contrast junior vs. senior recruiter methods: highlight how high-performers avoid time-wasting traps.

35 MINS

Live Demonstration & Student Walkthrough

- ▶ Execute a live mock demonstration using real candidate profiles or job descriptions.
- ▶ Call on 2-3 students to suggest search parameters or candidate objection responses in real time.
- ▶ Emphasize compliance, candidate experience, and metric tracking (Submittal-to-Interview ratio).

25 MINS

Hands-on Activity, Q&A & Wrap-Up

- ▶ Assign the practical exercise below; give students 15 minutes of structured practice.
- ▶ Review 2 volunteer submissions and provide immediate tactical critique.

- Announce the attendance-gated assignment/assessment and key action items before next class.

04

Key Concepts & Industry Case Studies

Applied talent acquisition frameworks & verified corporate benchmarks

High-Impact Candidate Conversion & Intake Calibration

Recruiting speed is determined in the first 48 hours. Calibrating the exact must-haves versus good-to-haves with hiring managers prevents weeks of futile sourcing.

REAL-WORLD CASE STUDY & METRIC BENCHMARK:

Case Study: A fast-growing tech startup reduced their Time-to-Fill from 42 days to 16 days by implementing 15-minute calibration intake sheets and 3 benchmark profiles before starting active outreach.

Predictive Screening & Eliminating Offer Dropouts

Assessing intent, compensation expectations, and competing offers during early stages ensures only high-probability candidates reach the offer table.

REAL-WORLD CASE STUDY & METRIC BENCHMARK:

Case Study: Enterprise IT services firm increased joining ratio from 68% to 89% by embedding counter-offer risk audits and transparent notice period buy-out protocols during initial screening calls.

05

Practical Classroom Activities & Exercises

Direct classroom simulations and portfolio artifacts

Hands-on Lab: Module 9 — AI for Recruitment Marketing & Employer Branding Live Execution

Instructions: Using the provided job specification / scenario, build the complete deliverable: Generating viral, authentic LinkedIn hiring posts and job teaser carousels, Module 9 — AI for Recruitment Marketing & Employer Branding — Detailed Lecture & Guide, Crafting compelling Employer Value Proposition (EVP) messaging and culture stories.

Tangible Deliverable: Completed industry deliverable ready for portfolio.

Generative AI

Daily recruiter operations & efficiency

Claude 3.5 Sonnet

Reasoning & Documents

Daily recruiter operations & efficiency

Google Gemini 1.5 Pro

Multi-Modal AI

Daily recruiter operations & efficiency

Perplexity AI

Market Research

Daily recruiter operations & efficiency

07

Check-for-Understanding & Discussion Prompts

Oral viva check and critical scenario analysis

Q1

What are the top 3 failure points when recruiters execute "Module 9 — AI for Recruitment Marketing & Employer Branding", and how do you mitigate them?

Q2

How do you adjust your recruitment strategy when candidate response rate drops below 15%?

Q3

Explain how to measure Return on Effort (ROE) between active outbound sourcing vs. inbound portal applicants.

Q4

Role-play question: How would you handle a hiring manager who insists on unrealistic candidate criteria for an urgent requisition?

08

Session Summary & Post-Class Action Items

Core takeaways and mandatory preparation before next session

- ✓ Consistency in execution is what separates average recruiters from top 1% executive talent specialists.
- ✓ Always document your candidate communication trail, objection handling points, and submittal feedback in the ATS.
- ✓ Complete today's practical assignment and submit it via your student portal before the next live session.
