

## COURSE PROGRAM: CORPORATE RECRUITMENT TRAINING

## Session 1: Custom In-House Sourcing &amp; Boolean Mastery

## BATCH COHORT

Corporate Recruitment Training —  
Enterprise TA Capability Cohort (Sept  
2026)

## LEAD INSTRUCTOR

Shesha Shhiv Mohanty

## SCHEDULE &amp; TIMING

Sun, 02 Aug, 2026

07:00 pm - 09:00 pm IST

## 01 Learning Objectives &amp; Target Capabilities

Core competencies attendees master upon completing this session

- ✓ Upgrade in-house recruiters with cutting-edge talent intelligence and Boolean mastery.
- ✓ Master practical, industry-standard execution of Custom In-House Sourcing & Boolean Mastery.
- ✓ Apply hands-on recruitment workflows from sourcing, screening to candidate closing.
- ✓ Identify common recruitment bottlenecks and optimize hiring turnaround times (TAT).

## 02 Detailed Syllabus Topics &amp; Curriculum Breakdown

Step-by-step modular components covered in this session

## Module 1: Core Concepts

- Multi-channel passive candidate sourcing for enterprise hiring needs
- Advanced Boolean logic tailored to company-specific target profiles
- Optimizing recruiter outreach and reducing agency dependency

## 03 Trainer Teaching Notes &amp; Paced Talking Points

Chronological 120-minute delivery framework with talking points

## PEDAGOGICAL GUIDANCE FOR TRAINER:

Follow this 4-stage delivery timeline. Balance conceptual delivery with live screen-sharing and student interaction.

15 MINS

## Opening &amp; Context Setting

- ▶ Welcome students and link today's session on "Custom In-House Sourcing & Boolean Mastery" to the broader recruitment lifecycle.
- ▶ Poll the cohort: "How many of you have faced friction or candidate drop-offs at this stage?"
- ▶ State the concrete business outcome: how mastering this makes a recruiter 3x more productive and hire-ready.

45 MINS

## Deep-Dive Concept Delivery &amp; Frameworks

- ▶ Walk through the step-by-step workflow for Module 1: Core Concepts.
- ▶ Demonstrate real-time screen sharing: live Boolean strings, intake forms, or ATS pipeline configuration.
- ▶ Contrast junior vs. senior recruiter methods: highlight how high-performers avoid time-wasting traps.

35 MINS

## Live Demonstration &amp; Student Walkthrough

- ▶ Execute a live mock demonstration using real candidate profiles or job descriptions.
- ▶ Call on 2-3 students to suggest search parameters or candidate objection responses in real time.
- ▶ Emphasize compliance, candidate experience, and metric tracking (Submittal-to-Interview ratio).

25 MINS

## Hands-on Activity, Q&amp;A &amp; Wrap-Up

- ▶ Assign the practical exercise below; give students 15 minutes of structured practice.
- ▶ Review 2 volunteer submissions and provide immediate tactical critique.
- ▶ Announce the attendance-gated assignment/assessment and key action items before next class.

04

## Key Concepts & Industry Case Studies

Applied talent acquisition frameworks & verified corporate benchmarks

### High-Impact Candidate Conversion & Intake Calibration

Recruiting speed is determined in the first 48 hours. Calibrating the exact must-haves versus good-to-haves with hiring managers prevents weeks of futile sourcing.

#### REAL-WORLD CASE STUDY & METRIC BENCHMARK:

Case Study: A fast-growing tech startup reduced their Time-to-Fill from 42 days to 16 days by implementing 15-minute calibration intake sheets and 3 benchmark profiles before starting active outreach.

### Predictive Screening & Eliminating Offer Dropouts

Assessing intent, compensation expectations, and competing offers during early stages ensures only high-probability candidates reach the offer table.

#### REAL-WORLD CASE STUDY & METRIC BENCHMARK:

Case Study: Enterprise IT services firm increased joining ratio from 68% to 89% by embedding counter-offer risk audits and transparent notice period buy-out protocols during initial screening calls.

05

## Practical Classroom Activities & Exercises

Direct classroom simulations and portfolio artifacts

### Hands-on Lab: Custom In-House Sourcing & Boolean Mastery Live Execution

Instructions: Using the provided job specification / scenario, build the complete deliverable: Multi-channel passive candidate sourcing for enterprise hiring needs, Advanced Boolean logic tailored to company-specific target profiles, Optimizing recruiter outreach and reducing agency dependency.

**Tangible Deliverable:** Execute high-speed talent mapping for current open requisitions.

06

## Recommended Recruitment Software & Tech Stack

Enterprise-grade recruiting tools utilized during this session

#### Enterprise ATS & CRM

Daily recruiter operations & efficiency

Hiring Operations

#### AI Sourcing Accelerators

Daily recruiter operations & efficiency

Automation

#### Talent Analytics Dashboards

Daily recruiter operations & efficiency

Recruitment BI

#### LinkedIn Talent Insights

Daily recruiter operations & efficiency

Market Intelligence

07

## Check-for-Understanding & Discussion Prompts

Oral viva check and critical scenario analysis

Q1

What are the top 3 failure points when recruiters execute "Custom In-House Sourcing & Boolean Mastery", and how do you mitigate them?

Q2

How do you adjust your recruitment strategy when candidate response rate drops below 15%?

Q3

Explain how to measure Return on Effort (ROE) between active outbound sourcing vs. inbound portal applicants.

Q4

Role-play question: How would you handle a hiring manager who insists on unrealistic candidate criteria for an urgent requisition?

08

## Session Summary & Post-Class Action Items

Core takeaways and mandatory preparation before next session

- ✓ Consistency in execution is what separates average recruiters from top 1% executive talent specialists.
- ✓ Always document your candidate communication trail, objection handling points, and submittal feedback in the ATS.
- ✓ Complete today's practical assignment and submit it via your student portal before the next live session.
