

# Recruitment Business Accelerator

## SESSION 1 SYLLABUS & TRAINER TEACHING GUIDE

### Hiring Recruiters, Commission Models & AI Copilots

Batch: Recruitment Business Accelerator — Agency Founder Cohort A (Sept 2026) | Lead Trainer: Brahmita Nayak | Schedule: Mon, 26 Oct, 2026 (06:30 pm – 08:30 pm IST)

#### 01 Learning Objectives & Session Outcomes

By the end of this session, attendees will have mastered the following practical capabilities and industry frameworks:

- Master practical, industry-standard execution of Hiring Recruiters, Commission Models & AI Copilots.
- Apply hands-on recruitment workflows from sourcing, screening to candidate closing.
- Identify common recruitment bottlenecks and optimize hiring turnaround times (TAT).

#### 02 Detailed Syllabus Topics & Curriculum Breakdown

##### • Hiring Recruiters, Commission Models & AI Copilots

- Foundational principles & operational workflows
- Advanced talent search, qualification & conversion tactics
- Industry benchmarking, quality metrics & documentation

#### 03 Trainer Teaching Notes & Paced Talking Points

*Trainer Guidance: Follow this structured 2-hour pacing model to balance conceptual clarity with practical hands-on application.*

##### Segment [15 Mins]: Opening & Context Setting

- %¶ Welcome students and link today's session on "Hiring Recruiters, Commission Models & AI Copilots" to the broader recruitment lifecycle.
- %¶ Poll the cohort: "How many of you have faced friction or drops at this specific hiring stage?"
- %¶ State the concrete business outcome: how mastering this makes a recruiter 3x more productive and hire-ready.

##### Segment [45 Mins]: Deep-Dive Concept Delivery & Frameworks

- %¶ Walk through the step-by-step workflow for Hiring Recruiters, Commission Models & AI Copilots.
- %¶ Demonstrate real-time screen sharing: live Boolean strings, intake forms, or ATS pipeline configuration.
- %¶ Contrast junior vs. senior recruiter methods: highlight how high-performers avoid time-wasting traps.

## Segment [35 Mins]: Live Demonstration & Student Walkthrough

%¶

Execute a live mock demonstration using real candidate profiles or job descriptions.

%¶

Call on 2-3 students to suggest search parameters or candidate objection responses in real time.

%¶

Emphasize compliance, candidate experience, and metric tracking (Submittal-to-Interview ratio).

## Segment [25 Mins]: Hands-on Activity, Q&A & Wrap-Up

%¶

Assign the practical exercise below; give students 15 minutes of structured practice.

%¶

Review 2 volunteer submissions and provide immediate tactical critique.

%¶

Announce the attendance-gated assignment/assessment and key action items before next class.

## 04 Key Concepts, Case Studies & Real-World Scenarios

### High-Impact Candidate Conversion & Intake Calibration

Recruiting speed is determined in the first 48 hours. Calibrating the exact must-haves versus good-to-haves with hiring managers prevents weeks of futile sourcing.

#### INDUSTRY EXAMPLE & CASE STUDY:

Case Study: A fast-growing tech startup reduced their Time-to-Fill from 42 days to 16 days by implementing 15-minute calibration intake sheets and 3 benchmark profiles before starting active outreach.

### Predictive Screening & Eliminating Offer Dropouts

Assessing intent, compensation expectations, and competing offers during early stages ensures only high-probability candidates reach the offer table.

#### INDUSTRY EXAMPLE & CASE STUDY:

Case Study: Enterprise IT services firm increased joining ratio from 68% to 89% by embedding counter-offer risk audits and transparent notice period buy-out protocols during initial screening calls.

## 05 Practical Classroom Activities & Exercises

### &j Hands-on Lab: Hiring Recruiters, Commission Models & AI Copilots Live Execution

Instructions: Using the provided job specification / scenario, build the complete deliverable: Foundational principles & operational workflows, Advanced talent search, qualification & conversion tactics, Industry benchmarking, quality metrics & documentation.  
**Deliverable: Completed industry deliverable ready for portfolio.**

## 06 Recommended Recruitment Tools & Software

### LinkedIn Recruiter

Sourcing & Boolean  
Talent mapping & InMail outreach

### Naukri Resdex

Job Portal Database  
Keyword filtering & active candidate search

### ChatGPT & Claude

GenAI Prompting  
JD enhancement, outreach copy & boolean builder

### Applicant Tracking Systems (ATS)

Pipeline Management  
Candidate tracking & submittal notes

## 07 Check-for-Understanding & Discussion Prompts

Q1.

What are the top 3 failure points when recruiters execute "Hiring Recruiters, Commission Models & AI Copilots", and how do you mitigate them?

Q2.

How do you adjust your recruitment strategy when candidate response rate drops below 15%?

Q3.

Explain how to measure Return on Effort (ROE) between active outbound sourcing vs. inbound portal applicants.

Q4.

Role-play question: How would you handle a hiring manager who insists on unrealistic candidate criteria for an urgent requisition?

## 08 Session Summary & Post-Class Action Items

- Consistency in execution is what separates average recruiters from top 1% executive talent specialists.

- Always document your candidate communication trail, objection handling points, and submittal feedback in the ATS.

- Complete today's practical assignment and submit it via your student portal before the next live session.
